To Whom It May Concern:

Subject: Endorsement of Hessler comments on Australian EPA Study at Waterloo Wind Farm

I hereby express my concurrence with George Hessler's comments (attached) re the subject study and wish to reinforce the need for controlled tests of perception thresholds for wind turbine acoustic emissions, with particular emphasis on signal components below approximately 30 Hz.

Respectfully,

A solid black rectangular box redacting the signature of Bruce Walker.

Bruce Walker, Ph.D. INCE Bd. Cert.
